Description
food preparation with long shelf-life having the aspect and structure of soft and spreadable custard; it is softly vanilla-milk flavoured and ready for use in all pastry-making applications after baking. CREMIRCA VANIGLIA, thanks to its composition, is a not perishable food; it is therefore particularly suitable for filling fresh pastries normally kept at room temperature, as doughnuts, croissants, fritters, fagottini.

Denomination
semifinished product for bakery uses

Directions for use
CREMIRCA VANIGLIA is ready for use and is ideal for all filling and decoration purposes after baking.
CREMIRCA VANIGLIA is particularly indicated in all applications where a prolonged durability is required.
When frozen, CREMIRCA VANIGLIA maintains its features unchanged.
CREMIRCA VANIGLIA lends perfectly itself to be used in the preparation of semifreddi, mousses and bavarian creams.
