GROUP

Extraordinary
made simple.

Directions for use

take the necessary quantity of MIRROR NEUTRAL from the packaging, warm it up in the microwaves oven or in bain-marie at about 50-55°C, then stir shortly without englobing air. Place the sweets to be glazed on the proper grates and cover with MIRROR NEUTRAL using a spatula and vibrate them lightly.

MIRROR NEUTRAL can also be used with excellent results on flat surfaces without warming: in this case work shortly with a spatula before using it.

The sweets decorated with MIRROR NEUTRAL keep their shining aspect also in the freezer at -20°.
