Directions for use

remove the desired quantity of MIRROR TOFFEE from the packaging and heat it in a microwave oven or a bain-marie at a temperature of 50-55°C, then stir it briefly without incorporating any air.

The products that are to be frosted should be placed on a suitable rack. Cover them with MIRROR TOFFEE, spreading it evenly with a spatula and gently shaking the product.

MIRROR TOFFEE can also be used with good results without heating it: it should be briefly worked with a spatula before spreading it over the product surface.
