

# PRINCESS PASTE

PASTRY

PRINCESS PASTE

White sugarpaste or fondant with cocoa butter. Compared to Power and Top Version of Pasta Dama line, this product is characterized by a thicker consistency and easily-moulded structure, which make it perfect to shape small decorative subjects. Highly versatile, it can be used for modelling flowers, ribbons, as well as many different decorations made with silicon moulds, but you can also use it as a base for painting. Highly moisture-resistant, it can be coloured either with water-soluble or fat-soluble colourings for food.
