

# FONDANT SOFT

PASTRY OTHER SUGARS

Fondant sugar made of sucrose and glucose syrup, marked by snow white colour and very plastic texture. Moreover, due to its very soft texture, it doesn't need the addition of water, but just a light heating, to be used. It is the ideal to cover choux, éclair and other sweets, to provide them with a shiny topping that keeps its brightness even at freezing temperatures. FONDANT SOFT perfectly lends itself to the addition of water-soluble colorants.

## MODALITÀ D'USO

For detailed product information (e.g. dietary suitability and certifications), please consult the technical data sheets or [contact our team](#).

No applications provided for this product.

## DETTAGLI PRODOTTO

Codice prodotto 01030378

## ALLERGENI/CROSS CONTAMINAZIONI

For detailed product information (e.g. dietary suitability and certifications), please consult the technical data sheets or [contact our team](#).

No allergens declared for this product.

## INFO

### Description

white fondant sugar ready to use for confectionery, no water addition is required.

### Denomination

fondant sugar.

### Directions for use

heat in bain-marie or microwave the necessary quantity of FONDANT SOFT at 40-45°C. Mix checking that the temperature does not exceed 55°C and use immediately.

If needed incorporate the flavourings and colouring agents.

Glaze the choux and pastries with the hot preparation.

Extraordinary
