

ESSENCE DARK CHOCOLATE 70%

CHOCOLATE

DOMORI CHOCOLATES

Fondente Essence 70%: an intense cocoa flavor complemented by delicate floral and fruity notes, with a lingering and aromatic finish.

Essence Range: a line of high-quality chocolates designed to ensure maximum versatility for any type of preparation. Free from artificial flavors, gluten-free, and made with sunflower lecithin, it embodies excellence for those seeking authenticity and purity.

Applications

With their medium-high fluidity, they are perfect for a wide variety of applications, such as chocolates, bars, tablets, and small to medium-sized hollow figures. They are also ideal for coating cut ganache and preparing base ganache.

Pastry chefs can create outstanding base creams, such as ganache, mousse, crèmeux, Bavarians, and other high-end pastry preparations.

In gelato-making, they excel in versatility, making them ideal for producing premium ice creams, sorbets, and semifreddos.

Working and storage temperatures

In production labs, it is essential to maintain optimal temperature and humidity levels, ideally between 18°C and 20°C, to ensure the best working conditions.

As with all chocolates, careful attention must be paid to storage conditions, especially during the summer. Store chocolate in a cool, dry environment, tightly sealed, and at a maximum temperature of 20°C.
