

NEUTRAL BASE WITH FIBERS 15G

GELATO DOMORI

A base designed to provide optimal structure and creaminess for gelato and sorbet. Made with natural ingredients, it is enriched with fibers to enhance creaminess and improve the final texture. A versatile base created to support Domori gelato creations, allowing the aromatic expression of ingredients to emerge while ensuring a balanced and consistent result.

Natural ingredients enriched with fibers for enhanced creaminess. Balanced structure and smooth, even texture.

MODALITÀ D'USO

Ice cream

INFO

Description

Stabilising powder preparation based on soluble vegetable fibre, used to improve the structure of chocolate and fruit ice cream, providing firmness and creaminess.

Denomination

Powder semi finished product for ice cream.

Directions for use

BASE NEUTRA CON FIBRE 15G	15 g
boiling water	550 g
Domori chocolate drops (CT 68%-72%)	200 g
dehydrated glucose syrup	105 g

irca
GROUP

Extraordinary
made simple.

sugar _____ 70 g
dextrose _____ 59 g
salt _____ 1 g

Hot preparation. Blend the product with the remaining powders and the chocolate drops using an immersion blender in the boiling water until completely dissolved. Let it rest for 30 minutes (ideally 2 hours), then freeze it directly in the batch freezer. Before freezing it, it is advisable to stir the mixture again.
