Let the laminated dough rest for 10 minutes.

## Final composition

---

Roll out the dough to 4 mm and cut it into triangles of the desired weight.

Roll the triangles up well tight, from the base up, bend the tips in order to give them a crescent shape and place them onto trays.

Store into the proofer room for 60 minutes at 28-30°C with relative humidity of the 80% (the temperature has to be not higher than 26°C, if the dough is laminated with butter, and not higher than 30°C if you use margarine instead).

Brush the croissants with beaten egg and bake at 200-220°C for about 20 minutes in a deck oven.

TIPS:

-It is recommended to bake before the rising is at its maximum.
