

RASPBERRIES SINGLE ORIGIN CHOCOLATE "ECUADOR 70%" AND JAVA'S PEPPER VENEZIANA

👤 Advanced level

Large leavened products

FIRST DOUGH

INGREDIENTS

DOLCE FORNO MAESTRO

yeast
water
caster sugar
egg yolk
unsalted butter 82% fat

PREPARATION

6500g Knead DOLCE FORNO MAESTRO, yeast and all the dose of water indicated in the recipe.
30g

2500g When the dough begins to take shape pour the sugar and then the yolks gradually in more than once and keep on kneading until the dough is well-combined and smooth.
500g

1500g At the end, add softened butter in 3-4 times.

1750g Make sure that the temperature of the dough is 26-28°C.

Let rise for 12-14 hours at 20-22°C with the 60-70% of relative humidity. If the proofer room is devoid of humidifier, cover the dough with a plastic cloth.

The dough shall quadruple its initial volume.

ADVICE:

- We suggest to cut out a 250g piece of dough and to put it into a 1L jug to check the pace of the leavening and verify the quadruplication of the volume.

- We suggest to begin to knead at second speed and then, when at $\frac{3}{4}$ of the kneading time, change to first speed and bring the kneading to end.

- If the temperature of the first dough is above 28°C, it will be necessary to decrease the leavening time.

IMPORTANT:

- If you are using a planetary mixer with a "dough hook" attachment or a spiral mixer you will have to reduce the amount of water specified in the first dough (we suggest you to use 2500/2200 gr)

SECOND DOUGH

INGREDIENTS

DOLCE FORNO MAESTRO

water
caster sugar
salt
egg yolk
unsalted butter 82% fat
honey
raspberries
MINUETTO FONDENTE ECUADOR 70%
java pepper

PREPARATION

4000g The next morning, the dough shall be quadrupled and slightly curved.
750g Add DOLCE FORNO MAESTRO and water to the first dough and knead for 5-
750g 10 minutes.
100g When well-combined, add sugar, honey, salt, pepper and one part of egg
1700g yolk. Then add the remaining egg yolk in few times.
2000g Once the mixture is ready, add softened butter in 3-4 times.
150g Lastly add semi-candied raspberries and than chocolate.
3500g Be sure that the temperature of the dough is 26-28°C.
2000g Let the dough rest in the proofer room at 28-30°C for about 90 minutes.
30g Divide the dough into portions of the required size and roll each portion up
into a ball shape.
Move onto boards or trays and leave to rest at 28-30°C for another 20
minutes.
Roll them up tight again and transfer into the specific paper molds.
Put in the proofer room at 28-30°C with relative humidity of about 60-
70% until the top of the dough will be up to 1cm from the edge of the mold; if
the proofer room is devoid of humidifier, cover the dough with plastic sheets.

AFTER COOKING GLAZE

INGREDIENTS

COVERDECOR DARK CHOCOLATE

PREPARATION

Melt COVER DECOR at 50°C.

Final composition

- At the end of the rising, leave the veneziana exposed to the air for 20 minutes until a light film forms over the surface.
- Cut the four flaps under the skin and place a small piece of cold butter in the center of the veneziana.
- Bake at 160-170°C, time depending on the weight (consider about 50-55 minutes for 1000g veneziana), until the temperature of the center reaches 93-95°C.
- As soon as they are removed from the oven, the veneziana should be placed onto the specific toothed racks and left to cool upside down for 8-10 hours.
- Cover the veneziana's surface with COVER DECOR DARK CHOCOLATE and decorate with DOBLA CURLS PINK.
- Wrap it in Moplefan bags.
