Final composition

Use a round cutter to cut the brownie into discs of the desidered dimension.

Line the inside of the steel rings with an acetate collar.

Lay a disc of brownie at the bottom, then use a pastry bag fitted with a round plain tip to create a swirl of FRUTTIDOR PERA, having care not to touch the border of the ring.

Fill the mould up with the mousse and smooth well, then put in the blast chiller for 15 minutes.

Transfer the remaining mousse into a pastry bag fitted with a round plain tip nr.10 and use it to decorate the top of the cake, then return to the blast chiller.

When hardened, remove from mould, dust with HAPPYCAO and decorate as you like most.
